Contact Information: +91 7829931629 | prajvalprasannakumar@gmail.com | [LinkedIn](#) | Location: Bengaluru, India

Professional Summary

Masters Degree holder in Data Science with 3 years of industry experience. Diligent and driven self-starter, added significant business value with an AI recommendation system for a telecommunication giant.

Skills

- Programming Languages & Frameworks: Python | R | SQL | TensorFlow | PyTorch | Langchain
 - Artificial Intelligence: Machine Learning | Deep Learning | Feature Engineering | Azure ML Studio | Natural Language Processing(NLP) | Computer Vision(CV) | Generative AI(Gen AI) | RAG | Agentic AI
 - Exploratory Data Analysis & Visualization: Pandas | NumPy | Matplotlib | Seaborn
 - Statistical Methods: Regression and Multivariate Analysis | Hypothesis Testing | Time-Series Analysis
 - Big Data & Data Wrangling: Splunk | Hadoop | Oracle SQL Developer | MySQL | Excel
-

Work Experience

Tata Consultancy Services

System Engineer

Bengaluru | 08/2023 – 01/2025

- Improved customer satisfaction and **reduced churn by 7%** with a **Tariff Plan Recommender System**.
- Wrangled large user behavioral and transactional datasets of over **100k** customers using SQL, Splunk.
- Iteratively trained and evaluated machine learning and Gen AI models, applying suitable metrics.
- Collaborated with 3 cross-functional teams to productionalize the ML application on Azure cloud.
- Proactively resolved a critical loss-making system defect impacting **5k** international customers within **12** hours using TIBCO Business Works. Recognized with an award for the same.

Assistant System Engineer

Bengaluru | 08/2021 - 07/2023

- Served a multinational client in telecommunication with a user base of over **10M** customers daily.
 - Conducted Exploratory Data Analysis using Pandas and Matplotlib in Python to identify key user trends.
 - Developed REST and SOAP APIs using TIBCO Business Works for Payment, CRM and Supply Chain.
-

Projects

[Financial News Agent with Gemini](#) - A GenAI-powered assistant designed to help users make informed investment decisions. It accepts natural language prompts, fetches, and summarizes relevant financial news, generates an investment plan, and evaluates its confidence leveraging GenAI capabilities. (Agents and RAG)

[Finance Portfolio Optimization](#) - *Comparative Analysis of Hierarchical Risk Parity, Graph Neural Networks*
Evaluated above models using metrics - Sharpe Ratio, Sortino Ratio and Maximum Drawdown to assess risk-adjusted returns. Demonstrated the superior performance of GNN in complex asset relationships.

Education

M.Sc. in Data Science (Correspondence)

2022 - 2024

Manipal Academy of Higher Education, Udupi, Karnataka

CGPA: 9 /10

B.E. in Electronics and Communication (Full-time)

2017 - 2021

APS College of Engineering, Bengaluru

CGPA: 7.23/10

Awards and Certifications

- 'Star of the Month' Award for resolving critical defect | 'Special Initiative Award' for dedication in delivery
- Microsoft Certified: Azure AI-900 | TensorFlow Developer Professional Certificate on Coursera
